So today it was about the civil indictment and criminal indictment that is essentially all of the felonies that had been committed since 1999 which are committed by Alex Azar by Anthony Fauci by ralph Baric by peter dash by the CDC NIH NIH I. D. Moderna and Pfizer's. And so what I did was I laid out the entire felony indictments so that any attorney general, any U. S. Attorney or any law enforcement officer which are committed by Alex Azar by Anthony Fauci by ralph Baric by peter dashed by the CDC NIH NIH I D. Moderna and Pfizer's. And so what I did was I laid out the entire felony indictments so that any attorney general, any U. S. And so what I did was I laid out the entire felony indictments so that any attorney general, any U. S. Attorney or any law enforcement officer which are committed by Alex Azar by Anthony Fauci by ralph Baric by peter dash IQ by the CDC NIH NIH I D. Moderna and Pfizer's. And so what I did was I laid out the entire felony indictments so that any attorney general, any U. S. Attorney or any law enforcement officer? Which are

committed by Alex azar by Anthony Fauci by ralph Baric by peter dashed by the CDC NIH NIH I D Moderna and Pfizer's And so what I did was I laid out the entire felony indictments so that any attorney general, any US attorney or any law enforcement officer which are committed by Alex azar by Anthony Fauci by ralph Baric by peter dash by the CDC NIH NIH I di Moderna and Pfizer's And so what I did was I laid out the entire felony indictments so that any attorney general, any U. Um, to arrest him for, wow. wow, wow. wow wow wow. wow wow wow. Oh wow. wow, wow! wow. Oh wow. So So I So uh So a So um, So you, So the, if we're serious about ending this thing, if we are serious about ending this thing, if you're serious about ending this thing, if we're serious about ending this thing, I, if we're serious about ending this thing out, if we're serious about ending this thing is if we're serious about ending this thing on nobody can say they didn't know how. That's right. Let's end this thing to. Yeah, well, and listen, a lot of people don't know. But inside the emergency use authorization legislation, nobody can say they didn't know how that's right. Let's end this thing to. Yeah, well and listen to a lot of people don't know. But inside the emergency use authorization legislation, nobody can say they didn't know how that's right. Let's send this thing to. Yeah, well, and listen, a lot of people don't know. But inside the emergency use authorization legislation. nobody can say they didn't know how that's right. Let's end this thing too well. And listen, a lot of people don't know, but inside the emergency use authorization legislation, nobody can say they didn't know how. That's right. Let's end this thing too. Yeah. Well, and listen, a lot of people don't know. But inside the emergency use authorization legislation. nobody can say they didn't know how that's right. Let's end this thing to Yeah, well, and listen, a lot of people don't know. But inside the emergency use authorization legislation. nobody can say they didn't know how that's right. Let's end this thing too well and listen to a lot of people don't know. But inside the emergency use authorization legislation nobody can say they didn't know how that's right. Let's end this thing too. Yeah. Well, and listen to a lot of people don't know. But inside the emergency use authorization legislation, nobody can say they didn't know how that's right. Let's end this thing to well and listen a lot of people don't know. But inside the emergency use authorization legislation What most people don't know is there's only one silver bullet what most people don't know is there is only one silver bullet. Um, what most people don't know is there's only one silver bullet. um, what most people don't know is there is only one silver bullet. And what most people don't know is there's only one silver bullet. Um uh what most people don't know is there's only one silver bullet. umm what most people don't know is there's only one silver bullet. uh, what most people don't know is there's only one silver bullet. and what most people don't know is there is only one silver bullet. and the one silver bullet is, if there was a felony as the basis for the establishment of an emergency, Okay. And the one silver bullet is, if there was a felony as the basis for the establishment of an emergency, Okay. Okay. And the one silver bullet is if there was a felony as the basis for the establishment of an emergency, The one silver

bullet is, if there was a felony as the basis for the establishment of an emergency, Ok. And the one silver bullet is if there was a felony as the basis for the establishment of an emergency, Ok. Ok. And the one silver bullet is if there was a felony as the basis for the establishment of an emergency Okay. The one silver bullet is, if there was a felony as the basis for the establishment of an emergency, Okay. Ok. And the one silver bullet is if there was a felony as the basis for the establishment of an emergency, Oh, okay. Okay. And the one silver bullet is if there was a felony as the basis for the establishment of an emergency, then the entire EU A goes away. So if we're serious about taking on the vaccine issues, the all of the public health ordinances, if we're serious about that, then what we need to do is we need to go after the one thing that the law allows us to do, which is if we established it was a felony exercise. And by the way, we have eight felony counts. then the entire EU aid goes away. So if we're serious about taking on the vaccine issues, the all of the public health ordinances, if we're serious about that, then what we need to do is we need to go after the one thing that the law allows us to do, which is if we established it was a felony exercise. And by the way, we have eight felony counts. then the entire EU A goes away. Okay. And by the way, we have eight felony counts. then the entire EU aid goes away. Okay? And by the way, we have eight felony counts, then the entire eu eh goes away. So if we're serious about taking on the vaccine issues, the all of the public health ordinances, if we're serious about that, then what we need to do is we need to go after the one thing that the law allows us to do, which is if we established it was a felony exercise. And by the way, we have eight felony counts. Then the entire EU eight goes away. So if we're serious about taking on the vaccine issues, the all of the public health ordinances, if we're serious about that, then what we need to do is we need to go after the one thing that the law allows us to do, which is if we established it was a felony exercise. And by the way, we have eight felony counts. Listen to eight felony counts, all bearing 99 year minimum sentences and up to \$100 million about Listen to eight felony counts, all bearing 99 year minimum sentences and up to \$100 million per instance fines. So we're talking about, Listen to that, eight felony counts, all bearing 99 year minimum sentences and up to \$100 million about Listen to eight felony counts, all bearing 99 year minimum sentences and up to \$100 million per instance finds. So we're talking about, Listen to that eight felony counts, all bearing 99 year minimum sentences and up to \$100 million about listen to that. Eight felony counts, all bearing 99 year minimum

sentences and up to \$100 million per instance finds. So we're talking about, Listen to the eight felony counts, all bearing 99 year minimum sentences and up to \$100 million about Listen to eight felony counts. All bearing 99 year minimum sentences up to \$100 million per instance fines. So we're talking about, You know, a massive, massive, massive opportunity to end this thing and pursue damages, which means that we would actually have recovery and think about where an \$800 million dollar recovery could go You know, a massive, massive, massive opportunity to end this thing and pursue damages, which means that we would actually have recovery and think about where an \$800 million dollars recovery could go You know, a massive, massive, massive opportunity to end this thing and pursue damages, which means that we would actually have recovery and think about where an \$800 million dollars recovery could go. You know, a massive, massive, massive opportunity to end this thing and pursue damages, which means that we would actually have recovery and think about where an \$800 million dollar recovery could go. You know, a massive, massive, massive opportunity to end this thing and pursue damages, which means that we would actually have recovery. And think about where an \$800 million dollar recovery could go Write an \$800 million clay was very good in making sure that he gave me an extra seven minutes. Right. I've asked many attorney generals I've asked many Attorney General's Ive asked many Attorney general's who wrote the declaration. They used to shut down their states who wrote the declaration. They used to shut down their state's who wrote the declaration? They used two. Shut down their states because all of them did because all of them did it. and they start with three. Whereas is, you know, contracts a lot of them have. Whereas whereas this happened. Whereas this, well, let's break it down first three. Whereas is in almost every state's declaration is whereas there's a novel coronavirus. Whereas the coronavirus causes to covid 19, none of which is true. And they start with three. Whereas is, you know, contracts. A lot of them have. Whereas whereas this happened. Where is this? Well, let's break it down first three. Whereas is in almost every state's declaration is. Whereas there's a novel coronavirus. Whereas the coronavirus causes to covid 19. None of which is true. and they start with three. Whereas is you know, contracts a lot of them have. Whereas whereas this happened whereas this, well let's break it down first three. Whereas in almost every state's declaration is, whereas there's a novel coronavirus, whereas the coronavirus causes to covid 19, none of which is true. And whereas there's been a bunch of people getting sick from this thing, which none of that's true. So I asked them who who in your office varied afraid that information. And whereas there's been a bunch of people getting sick from this thing which none of that's true. So I asked him who who in your office varied afraid that information. And whereas there's been a bunch of people getting sick from this thing, which none of that's true. So I asked them who who who in your office varied afraid that information. Oh well nobody I said, okay, great. Oh well nobody said okay great. Oh nobody. I said, okay great. So let me ask a question when you wrote it, So let me ask the question when you wrote it, So let me ask you question when you wrote it, how did you come up with that language? how did you come up with that language how did you come up with that language? A And a couple of them, and a couple of them are, you know, regrettably for them because I'm saying it to you you know, I regrettably for them because I'm saying it to you, you know, a regrettably for them because I'm saying it to you regrettably with them. They go, oh we didn't write it regrettably we with them they go, oh we didn't write it. regrettably with him. They go, oh we didn't write it. now, just to be clear, when you take an oath of office, you swear to defend your state or your country against all enemies, foreign and domestic. Do you think that somebody handing you a template that is going to destroy small businesses? That is going to shut down schools, shut down churches shut down. Real connections between people, let people die alone. Do you think that you might want to make sure you know, who wrote that template before you actually signed it into law? Not a single attorney general can tell you where that template came from And the bad

news is a couple of them failed to do the Windows thing, you know, in Microsoft word where you go to properties. Oops. Mhm. It would be a bummer to find out that maybe a couple U. S. Attorneys and a Gs forgot that before you use a template, you might want to check whether you change the property section because it would be a bummer to find out who really wrote that. Because if an enemy, foreign or domestic wrote that you actually just created an impeachable offense for your governor and for your attorney general and you actually did one step further. That's unfortunately sedition. And that's treason. And you mentioned bioweapon. There's no question. It's a bioweapon. Well, listen, I mean, given the fact that Out of that 191 billion, at least 50 billion of it that we know about came through DARPA and came through DARPA in unsolicited and uncompetitive grants, meaning that they just gave people money. DARPA was the one that weaponized spike protein the Department of Defense did. And every story you have about whether this is a chinese lab leak is a U. S. Lab leak. Is that a bat cave? Is that a bat and pangolin that walked into a bar and got it on one night. Whatever the story is that you're told, all of them are intended to distract you. The United States weaponized the spike protein in the University of north Carolina, Chapel Hill Labs, Ralph Baric is the architect of it. He published the formulas and in 2016 in the proceedings of the National Academy of Sciences, he made the following statement. SARS coronavirus is poised for human emergence? Mm hmm. That was 2,016. This thing wreaks of conspiracy reeks of evil and when it smells of sulfur. Don't be surprised who's behind it. -- That's -- wreaks of conspiracy reeks of evil and when it smells of sulfur. Don't be surprised who's behind it? wreaks of conspiracy reeks of evil and when it smells of sulfur, don't be surprised who is behind it, That's wreaks of conspiracy reeks of evil and when it smells of sulfur. Don't be surprised who is behind it. absolutely the creator of it. There you go. I don't think you're gonna be invited to the christmas party of those people, you know, something christmas card, just a lot of christmas parties I've been uninvited from. Um, that's okay because the good news is every time I set a table in my house, I've got 12 seats around the table and I've never seen them empty. And I always loved the fact that when jesus had his last supper, he said something really interesting and I think we got it wrong in how we teach it because what he said was as off as you eat the bread as off as you drink the cup. You know what that means in my house two or three times a day. But it doesn't mean when you go to mass or when you go to communion, it means every time you're at table, all you do is remember him. That's it. And if we taught what that teaching really was, it's about making sure that tables filled with people, friends and strangers because something magic happens when you break bread and you drink the cup and you remember him because you wipe out the possibility that the people sitting there, leave as strangers because they always leave as friends. That's perfect. That was perfect. I love it. That's the future, humanity. We can choose it. We can live it. We can start living it today -- and closing. Can you -- In closing. Can you and closing. Can you and closing. -- Can you -- give -- give -- give give give a give give me give everybody hope, nope. I can't, I can give you certainty certainty is a lot better than hope. So Hope is an interesting problem because Hope says there's something about the present condition that needs to be improved and the fact of the matter is we are fully equipped, were born equipped, we came into this world equipped, we have fellowship with each other. We're fully equipped. Today's the perfect day. It is absolutely perfect. It is It is uh It is I It is the It is now irritating enough to call us to action, irritating enough to call us to action I irritating enough to call us to action to irritating enough to call us to action is irritating enough to call us to action the which is perfect which is perfect. I which is perfect for which is a perfect because if we weren't irritated, we'd be complacent. because if we weren't irritated, we'll be complacent. because if we werent irritated, would be complacent. because if we weren't irritated, we

be complacent. So guess what? We need a little itch every now and then. That's okay. That's perfection. We have a day like every other day and remember there's the middle part of the bible, you never read, write the minor prophets, you know what all those stories are So guess what? We need a little itch every now and then. That's okay, that's perfection. We have a day like every other day. And remember there's a middle part of the bible. You never read, write the minor profits. And what does God say every single time? there. Oh man. I think I'm the only one that's good anymore. O the whole world's falling down. You know, I'm gonna go eat worms. Right? That's, that's the story. And what does God say every single time He always says to the prophet, hey, He always says to the profit. Hey, He always says the prophet a He always says the profit. Hay, he always says to the prophet, eh, I have a remnant, right? Have a remnant. I got a couple of people who didn't drink the kool Aid. I And guess what's A couple of books later. Oh, it's the end of the world. I'm the only one and then I A couple books later. Oh, it's the end of the world. I'm the only one. And then I a couple of books later, Oh, it's the End of the world. I'm the only one. And then I a couple of books later? Oh, it's the end of the world. I am the only one. First update for you. People always ask me, they say Clay, when are you going to put up the agenda for the reawakened american tour Gina? Is that probably the most commonly asked questions. Everyone wins the itinerary coming out. So this is what I've got right now and I'm just gonna read off some of the speakers that are coming to this that we have confirmed right now we have Donna Clements, which is kim Clements daughter, your pastor. It's a little crazy. So again, Donnie clement from the kim clement prophecies that that's his implement? The prophet who is now deceased. Who said trump would become a trumpet, shall become a trumpet, says the Lord. No, you didn't hear me trump shall become a trumpet. Are you listening to me? I will raise up -- the trump to become a trumpet. -- the trump to become a trumpet. -- the trump to become the trumpet. -- the trump to become a trumpet. People just reached out and said can charlie come and everyone's gonna be there. But then the next question people always ask is how much does it cost? And so can you explain the pricing model? So people can understand how much it costs or does not cost to attend to reawaken american. Now, what if I'm in a tight spot? And I say how much and what if I'm in a tight spot? And I go, hey, I can't do 2 50 or I just don't want to pay 2 50. What's the lowest price that you've sold a ticket for? The lowest price ever sold is actually \$6. So I've got someone in there for that and that's not a deep state illuminati reference. Okay, but but what what do you think the average person is paying? Because you've been here. You've been here since the very first event. What do you think the average person pays for a ticket to attend a 2 to 3 day event for the reawaken american and the majority of \$50. \$50. Okay. And what's the lowest ticket? You've sold a ticket for the lowest price you sold tickets His daughter will be coming to break down the properties also have steve Schultz from Eliza streams, he's coming. Amanda, Grace is in place, we've got, we've got Michael and els coming, you're gonna be there, be there. General general plan is gonna be there charlie Kirk's people just reached out and said, can charlie come and everyone's gonna be there. But then the next question people always ask is how much does it cost and so can you explain the pricing model? So people can understand how much it costs or does not cost to attend to reawaken american?

Now, what if I'm in a tight spot? And I say, how much and what if I'm in a tight spot? And I go, hey, I can't do 2 50 or I just don't want to pay 2 50. What's the lowest price that you've sold a ticket for? The lowest price ever sold is actually \$6. So I've got someone in there for that and that's not a deep state illuminati reference. Okay. But but what, what do you think the average person is paying? Because you've been here, you've been here since the very first event? What do you think the average person pays for a ticket to attend a 2 to 3 day event for the Reawaken America and the majority of \$50. \$50. Okay. And what's the lowest ticket you've sold? A ticket for? The lowest price you sold tickets Sold for \$5. You're sick. Undercutting. Okay. But the point is, you can attend this event. It's gonna be awesome. That Michael Flynn, General Flynn, we've got Charlie Kirk. I mean Senator Wendy Rogers will be there. We have a high rez and Jimmy Levy, the rap group. We have Sean Foy lineups. Epic. I'll put the lineup. I'll put a link to the confirmed speakers on this video update for you. Next update for you is we only have 12% of the tickets left. And Jackson, you've been to these events. Can you explain the energy of the reawakening? -- The most amazing -- Can you explain the energy of the reawakening? The most amazing Uh, can you explain the energy of the reawakening of the most amazing Can you explain the energy of the reawakened? The most amazing Uh, can you explain the energy of the Reawakening is the most amazing Uh, can you explain the energy of the reawakened the most amazing thing? Because you've got a whole bunch of like minded thousands of like minded patriots and Christians coming together in one place. Because what the media likes to do to us is make us feel like we're isolated. Oh, you're a crazy conspiracy theory and theorist. And you just live on an island all by yourself. No, no, there's thousands more of us than there are of them. So when we come together it's like charcoal? If you put charcoal together and you ignite one? It ignites the others? But if you separate the coals, what happens is they cool off? So when we come together, we ignite one another and then we take that fire back to wherever we're from. -- So it's a beautiful thing everywhere -- If you put charcoal together and you ignite one, it ignites the others. But if you separate the coals, what happens is they cool off. So when we come together, we ignite one another and then we take that fire back to wherever we're from. So when we come together, we ignite one another and then we take that fire back to wherever we're from. So it's a beautiful thing everywhere We go. 3rd update for you. People always ask me, they always say Clay, what are you, what are you, what are you doing with what? Well, the thing is every event we do, it costs a lot of money to put on these events. And Pastor Jackson, you organize a lot of events. I organize a lot of events. Let me tell you Got you got Porta potties speakers, you have reimbursements, we have scholarships. So what we do is all the money from every event goes into the next event. And so I have not taken a dime of money from the tour so far. Uh, and uh, I've never worked harder. So the hours are long, the pay is low. But what kind of sick freaks would, would be willing to do this? It's people that believe in saving America and we want everybody out there, if you're out there today, I want you to go to time to free american dot com and request tickets. I'll tell you, I'm not doing this because it's uh, it's uh, it pays well, I'm not doing it for fame and I'm not doing it to get sued by Eric

Coomer and Dominion. But I am being now sued by Eric Coomer of Dominion. So people ask me all the time. They said today, I've been doing a lot of interviews with the Associated Press and others asking me what are your thoughts about Eric Coomer? And I just sincerely believe that I'm praying for the soul of America and I'm praying for the soul of Eric Coomer and I'm praying that America can discover election integrity and that's what I'm praying for. And I would just I mean, Jackson, we're out there to explain the truth about election fraud, medical fraud, religious fraud, fiat currency fraud, mainstream media fraud. -- Why are we doing the reawakened -- and I'm praying that America can discover election integrity and that's what I'm praying for. And I would just, I mean, Jackson were out there to explain the truth about election fraud, medical fraud, religious fraud, fiat currency fraud, mainstream media fraud. It's because people need to know the truth is the truth that sets us free. And unfortunately you can't just turn on CNN Fox News or MSNBC, you're not gonna find the truth there and then you get on your phones and you have no idea what's true, what's not true. And so you have an opportunity to come in here, the best of the best, the best lawyers, the best doctors, the best pastors. All coming together and just speaking the truth. And then you get to discern from that what you believe is the truth. These are important things and it's unfiltered.
